# THE NORDIC CAPACITY CALCULATION METHODOLOGY PROJECT

The Nordic Capacity Calculation Methodology (CCM) project is responsible for the methodology development of the Nordic Capacity Calculation Methodologies for the Long-Term (LT), Day-Ahead (DA), and Intraday (ID) timeframes. The methodologies are to be developed in line with the requirements from the Forward Capacity Allocation Guideline (FCA GL) and Capacity Allocation and Congestion Management Guideline (CACM GL), and to be approved by the National Regulatory Authorities (NRAs). If NRAs are not able to approve the methodology proposed by the TSOs, they have to refer the methodology to the Agency for the Cooperation of Energy Regulators (ACER). ACER will then amend, and decide on, the methodology.

Below, an overview is provided of the Nordic LT and DA/ID CCM developments.

### LT CCM

- January 16, 2019 – The Nordic TSOs submitted the LT CCM to the Nordic NRAs
- May 15, 2019 – Nordic NRAs referred the LT CCM to ACER
- October 30, 2019 – ACER decision to approve the Nordic LT CCM (Decision 16/2019; you can access the decision [here](#))

### DA/ID CCM

- July 16, 2018 – The Nordic NRAs approved the DA/ID CCM (“V1”)
- December 20, 2018 – The Danish, Finnish, and Swedish NRA issued a request for amendment for the DA/ID CCM
- June 20, 2019 – Amended DA/ID CCM (“V2”) submitted by Energinet, Fingrid, and Svenska kraftnät
- October / November 2019 – The Danish, Finnish, and Swedish NRA have agreed to approve the amended DA/ID CCM (“V2”)
- November 2019 – The TSOs of the CCR Nordic are currently in the process of amending the DA/ID CCM (“V3”), in line with ACER’s decision on the LT CCM. This amended DA/ID CCM (“V3”) is intended to replace entirely the earlier versions of the DA/ID CCM.
- December 2019 – A public consultation of the amended DA/ID CCM (“V3”) is foreseen to be launched before Christmas.

# THE NORDIC CAPACITY CALCULATION METHODOLOGY PROJECT

The NorCap project within the Nordic RSC is working on the implementation of the DA/ID CCM.

## December 12 Stakeholder Forum

On December 12, the Nordic TSOs would like to invite you for a Stakeholder Forum (SHF) meeting. The exact meeting location is not known yet, but will be in a range of 30 minutes from Copenhagen Airport. All are welcome, so feel free to share this invite with your colleagues or other persons that may be interested. If you plan to attend the meeting, can we please ask you to **register yourself as soon as possible** on the following website:

[https://nordic\\_ccm\\_shf\\_2019.eventbrite.nl](https://nordic_ccm_shf_2019.eventbrite.nl)

We welcome suggestions of topics that you would like to have addressed in the meeting! We have (at least) the following items in mind:

- Recap of the FB methodology (for those interested and/or new to the topic)
- Status update: where are we now
- Implementation timeline
- ACER's decision on the LT CCM
- Impact of the ACER decision and next steps on the DA/ID CCM
- Questions and answers

We are looking forward to meet you on December 12!

## Questions or remarks?

In case of questions or remarks, we invite you to send an email to: [CCM@nordic-rsc.net](mailto:CCM@nordic-rsc.net).

Of course you can approach one of the TSO representatives, mentioned in the banner of this newsletter, as well.
