Ongoing discussion with the NRAs

In their communication regarding the 3-month EPR report, the Nordic NRAs concluded that there are open issues still remaining beyond the key performance indicators (KPIs). The Nordic TSOs are currently in contact with the Nordic NRAs to clarify these issues as well as the NRAs' expectations.

More information will be shared with stakeholders as soon as possible.

Starting date for the next six months of EPR: 13 July 2023

The Nordic TSOs confirm that the next six months of EPR started on 13 July. The Nordic CCM urges all electricity market stakeholders to follow the EPR closely to prepare for the upcoming transition towards flow-based capacity calculation.

Biweekly meetings elaborating the EPR results

Nordic CCM will start having biweekly online stakeholder meetings with the sole focus of elaborating the EPR results. All meetings will have the same agenda. The aim is to provide a more continuous data elaboration close to the actual data publication itself. We hope that this will further assist stakeholders in following the EPR.

The meetings will be held on Thursdays at 09:00 – 11:00 CET, starting on 14 September. Meeting link and agenda to be provided soon.

Upcoming stakeholder meetings

Online stakeholder meeting 31 August, 09:00 – 11:00 CET

Join our online stakeholder meeting focused on a Data publication walkthrough. This is an online meeting via Teams, no registration necessary.
