## Request: Please provide input to the agenda for the Hybrid meeting in October

We would like to invite you to propose topics for the full-day hybrid stakeholder meeting 26 October. Please provide your input by e-mail to [ccm@nordic-rcc.net](mailto:ccm@nordic-rcc.net).

## New version of Operational learning points published

In this document the TSOs collect and explain the operational learning points we have encountered during the EPR. The document is to be updated continuously and the latest update was published 11 September.

[Download the Operational learning points from the Nordic RCC website](#)

The Operational learning points document was first published in June 2023, covering both the KPI reporting period of the NRA report (12 December 2022-12 March 2023) but also new findings that have been encountered after publishing the 3-month NRA report.

Please note that the SEW impacts of the operational learning points may be either positive or negative, when comparing FB to NTC, and depend on the specific case.

## Reminder: Stakeholder meetings this week

**Biweekly online stakeholder meeting on EPR results 14 September, 09:00 – 11:00 CET: [Click here to join the meeting!](#)**

Join our biweekly online stakeholder meeting focused on elaborating EPR results. The presentation will contain the impact of the Nordic flow-based impact for the period week 26-32.

There will be a walkthrough of the flow-based impact on SEW, prices, net position, and border-flow. We'll also provide a deep dive of specific hours of interest during the period.

Please note that although the meeting is booked for two hours, it may end earlier depending on the discussions. As this is an online meeting via Teams, no registration is necessary. [Just click here to join the meeting!](#)
