

Nordic CCM Market Report: 2024 Week 3

*For more information on the EPR and other published data consult the EPR Handbook

General Remark

This week sees an overall change for the Nordic CCR of -1.87 M€, a change of 0.46 M€ on the Hansa/Baltic border, and a change of -0.76 M€ for the external areas, resulting in a change of -2.17 M€ for the entire SDAC area.

Similarly to last week, the negative SEW for this week is due to some Swedish CNECs between SE2 and SE3 having different configurations between FB and NTC and a Finnish PTC outage handling differences during 17.-18.1. and further explanation for the issues can be found on previous week's report and the Finnish PTC outage will also be more elaborated in operational learning points.

On Saturday, due to Nordic RCC network issues, data flows from SvK to RCC were not working. This resulted in use of back-up domains for the day.

Nordic CCR Socio-economic Welfare Result (M€)

	DK	NO	SE	FI	Sum
Congestion Income	0.09	-5.67	8.96	0.15	3.52
