

Nordic CCM Market Report: 2024 Week 25

*For more information on the EPR and other published data consult the EPR Handbook

General Remark

This week sees an overall change for the Nordic CCR of -4.34 M€, a change of 5.78 M€ on the Hansa/Baltic border, and a change of -0.02 M€ for the external areas, resulting in a change of 1.42 M€ for the entire SDAC area.

For five days in this week, FB provides a SEW gain in the total SDAC area, while Wednesday & Thursday are negative.

The negative SEW change for the Nordic CCR is partly due to the shift of internal congestion income in the Nordics to the congestion income at the Hansa borders.
