# Future work within Nordic CCM

## Follow-up report concerning FB implementation and ID ATCE

- The TSOs have received a request from the NRA:s to deliver a subsequent report 6 months after the go-live date of FB in DA timeframe, including the realized effects of the ID ATCE implementation, comparing them to the expected effect.

## Implementation of FB intraday (ID) timeframe

- The TSOs together with NEMOs are working towards implementation of FB in the intraday timeframe
- The project has been initiated and is currently in the process of starting up the project.

# Future work within Nordic CCM

## Implementation of LT CCM - FB in long term (LT) timeframe

- The LT FB capacity calculation should be implemented 12 months after implementation of FB in the day ahead timeframe -> October 2025
- Pending TSO-NRA discussions on details. Stakeholders will be informed in due time.
